NEW

HAKKAPELIITTA® C4

VAN/CARGO/RV

STAINLESS WINTER GRIP

The **new** Nokian Tyres Hakkapeliitta® C4 studded tire masters all elements of winter. State-of-the-art stainless steel square studs ensure controlled handling and supreme grip on ice and snow. The increased number of studs and computer optimized design provide relentless winter grip, improved durability and maximized driving comfort for versatile van, delivery vehicle and RV use. The stainless-steel studs are corrosion resistant, so the tire can withstand salted roads while keeping a stylish appearance.

The new **stainless-steel studs** hug the road and withstand wear as the miles add up. And there's safety in numbers – with more studs than ever, the Hakkapeliitta C4 offers secure grip. The studs team up with a high-tech tread pattern tailored to handle the worst conditions winter throws at you – while maintaining a surprisingly quiet, smooth ride.

The Hakkapeliitta C4 exists to make life easier on the road, for work and leisure alike. It provides balanced handling and top-class durability to overcome black ice, water and slush.

Speaking of durability, Nokian Tyres' **Aramid Sidewall technology** protects the tire in demanding driving conditions. The same fibers used in bulletproof vests help the tire resist impacts and cuts that could otherwise easily break it. The added durability and safety provided by the Aramid Sidewalls helps drivers enjoy more care free moments behind the wheel.

FACTORY STUDED

The Nokian Tyres 30-Day Satisfaction Guarantee and Nokian Tyres Pothole Protection excludes tires used in commercial applications.

FACTORY STUDDED

NOTE:

C = Commercial (Example: 235/65 R 16 **C**) Euro-metric tire sizes ending with a **C** are commercial tires, for use on delivery trucks and vans capable of carrying heavy loads. In addition to the **C** designation, these sizes are also branded with a load range and service description rating (**load range C, D or E**).
