NEW

HAKKAPELIITTA® CR4

VAN/CARGO/RV

STABLE HANDLING, COMFORTABLE AND QUIET

The **new** stable and silent Nokian Tyres Hakkapeliitta® CR4 Nordic studless winter tire is the choice for van and RV drivers who want to feel safe and comfortable on crowded urban streets and unplowed urban gravel roads. It handles comfortably in all conditions while reducing fuel consumption and carbon dioxide emissions.

The Hakkapeliitta CR4 travels reliably and comfortably through snowstorms and freezing temperatures thanks to a high-tech **MultiTouch** tread design, which provides first-class winter grip and handling. Computer-optimized sipes throughout the tread pattern are crafted to adapt to unpredictable winter roads. Drivers will enjoy secure grip on snow and ice thanks to **Brake Boosters** and **Sipe Activators** on the tailored tread.

The Hakkapeliitta CR4 has a sturdy center section built for safety and durability. The tire excels at high speeds thanks to **Groove Lifts** and a unique siping pattern. The tread compound is tailored for versatile heavy-duty use and works safely across a wide temperature range. It also improves energy efficiency, resulting in improved mileage and lower fuel costs.

Aramid reinforced sidewalls offer one-of-a-kind protection against impacts, potholes and cuts. The same fiber used in bulletproof vests is embedded throughout the Hakkapeliitta CR4's sidewalls to help the tire withstand external impacts and cuts, offering predictable performance in the harshest conditions.

STUDLESS

The Nokian Tyres 30-Day Satisfaction Guarantee and Nokian Tyres Pothole Protection excludes tires used in commercial applications.

NOTE:

C = Commercial (Example: 235/65 R 16 **C**) Euro-metric tire sizes ending with a **C** are commercial tires, for use on delivery trucks and vans capable of carrying heavy loads. In addition to the **C** designation, these sizes are also branded with a load range and service description rating (**load range C, D or E**).
