M+S

Official winter tyre approval (3PMSF)

New all-season drive axle tyre for long and medium haul operations

Optimized tread pattern staggering ensures even wear pattern

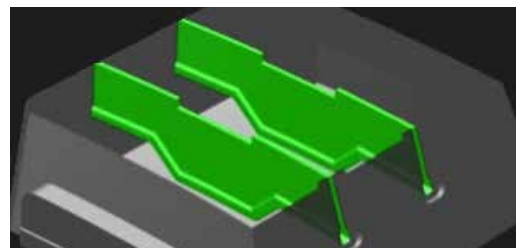

Good winter grip on packed snow and ice

Open V-shaped tread design with good self-cleaning

Good stability due to V-shaped tread pattern and special semi-open shoulders

Effective siping improves grip in both acceleration and braking

DSI - Driving safety indicator

Self-Generating Siping developed by Nokian Tyres improves grip, traction remains good even when worn.
