TYRES

Nokian HTS G2

E-4 and L-4S

Stable and durable harbour tyre

NOKIAN HTS G2

Keep the goods moving

Nokian HTS G2 is the improved new generation of the Nokian HTS harbour tyres. Both slick and patterned variations bring stability, handling precision and load-bearing capacity for reach stackers, fork lifts and log stackers. Steady handling and cornering translate to safety and efficiency in your everyday work, while the excellent puncture resistance and deep grooves ensure long, trouble-free life.

NOKIAN HTS G2 E-4

Thanks to its innovative tread design, Nokian HTS G2 E-4 has a low heat build-up that reduces rolling resistance and fuel consumption.

- Supported blocks with chamfered edges improve turning
- Tread depth indicator shows the tyre condition at a glance
- For safer operation, the all-new carcass material improves stability on flexing area

NOKIAN HTS G2 L-4S

With its solid tread with plenty of thick rubber, the slick Nokian HTS G2 L-4S offers excellent wear resistance.

- Deep, hard-wearing tread for long service life
- Solid tread for excellent puncture resistance
- For safer operation, the all-new carcass material improves stability on flexing area
